

Project Proposal: FCHCC Website Revitalization

Client: Quenby F

Client Location: United States

Developed by: Asaduzzaman Akib

Project Overview

The FCHCC website revitalization project aims to transform the current site into a professional, user-friendly, and easily manageable platform. This includes modernizing the design, implementing new functionality, integrating Salesforce for backend operations, and enhancing user engagement through improved community features, donation capabilities, email communication, and reporting.

Mission Statement:

To create a streamlined, professional online presence for FCHCC, empowering the organization to manage content, engage with the community, and operate effectively through seamless Salesforce integration.

=> Core Features

1. Website Redesign & Rebuild

- Transition from WordPress to a cleaner, more manageable platform.
- Design a modern, professional homepage, featuring a dynamic introduction (e.g., a video of the president and possibly a drone shot of Jacksonville).
- Ensure the website is user-friendly, responsive, and easily maintainable.

2. Community Hub Page

- Implement the community page design created in Manus as the main hub for community-related activities, resources, and engagement.
- Allow users to interact with community content, view events, and access key information.

3. Donation System

- Enable and properly configure new donation functionality, ensuring it works seamlessly with the new website design.
- Implement secure payment processing and user-friendly donation options.

4. Salesforce Backend Integration

- Integrate Salesforce to handle backend operations such as donor management, event tracking, and reporting.
- Enable seamless data synchronization between the website and Salesforce, including AI-driven insights for engagement.

5. Email & Newsletter Integration

- Set up email communication systems for newsletters and updates, leveraging Salesforce or a preferred email platform.
- Design email templates that are easy to manage and align with the FCHCC branding.

6. Calendar Functionality

- Integrate a dynamic event calendar for FCHCC activities, ensuring it's easy to update and display upcoming events.

7. Reporting & Analytics

- Implement reporting tools to track donations, community engagement, and event participation.
- Provide dashboards for actionable insights into key metrics, allowing FCHCC to optimize its operations.

8. Ongoing Maintenance & Support

- Set up a foundation for ongoing maintenance and technical support.
- Provide regular updates, security patches, and content management assistance as needed.

Technical Architecture & Stack

- UI/UX Design: ReactJS (for modern and responsive web applications).
- Backend Development: Laravel – For robust and scalable backend architecture.
- Database: MySQL – For efficient and reliable data management.

Development Phases & Timeline

=>Phase 1: UI/UX Design

- Duration: 15 days
- Investment: \$750 USD
- Deliverables: Finalized design system, wireframes, and design

=>Phase 2: Frontend Development

- Duration: 15 days
- Investment: \$750 USD
- Deliverables: React.js frontend, responsive UI

=>Phase 3: Backend Development & Salesforce Integration

- Duration: 20 days
- Investment: \$1,000 USD
- Deliverables: Salesforce integration, donation system, AI features, email system setup

Total: \$2500 USD//50 days

What We Need From You

=>Immediate Requirements:

- Approval of the proposed technical approach and features
- Access to existing Salesforce accounts and APIs
- Content for the homepage, community page, and email templates
- Brand guidelines for design consistency
- Hosting and domain preferences

=>During Development:

- Regular feedback on design and features
- Content for newsletters, calendar entries, and community page details

Support & Maintenance

Post-Launch Support:

- First 2 months: Free bug fixes and minor adjustments
- Ongoing Support: Available at monthly or hourly rates for updates and technical support
- Monthly Maintenance: \$420/month for ongoing updates, monitoring, and security
- Emergency Support: 24/7 availability for critical issues

Ready to Start Building a Modern FCHCC Website?

We look forward to collaborating with you on this exciting project to transform FCHCC's online presence.

Best regards,
Asaduzzaman Akib
